

Marine Mammals Around the World

Directions- Color the marine mammals on the following page, then cut out and paste them where they can be found on the world map below. If they are found in more than place, draw an arrow to other places they live.

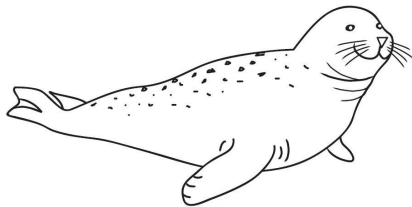

(Answer the questions on the next page when you are done placing your mammals.)

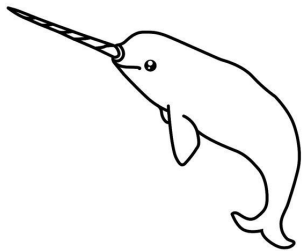

California Sea Lion

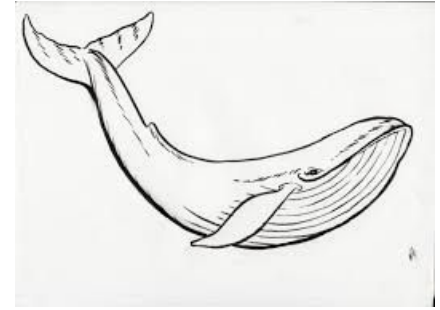

Orca Whale

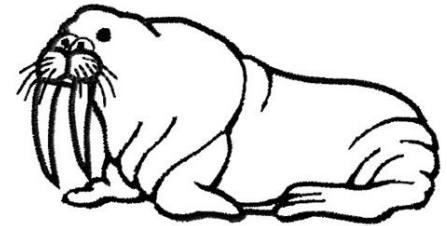

Harbor Seal

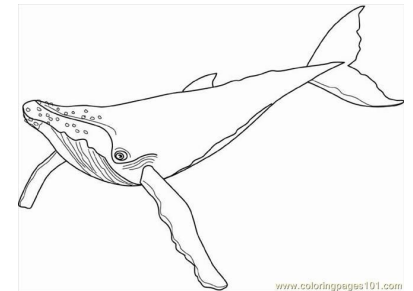

Narwhal

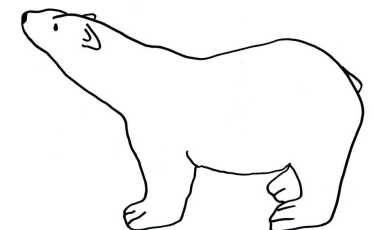

Blue Whale

Walrus

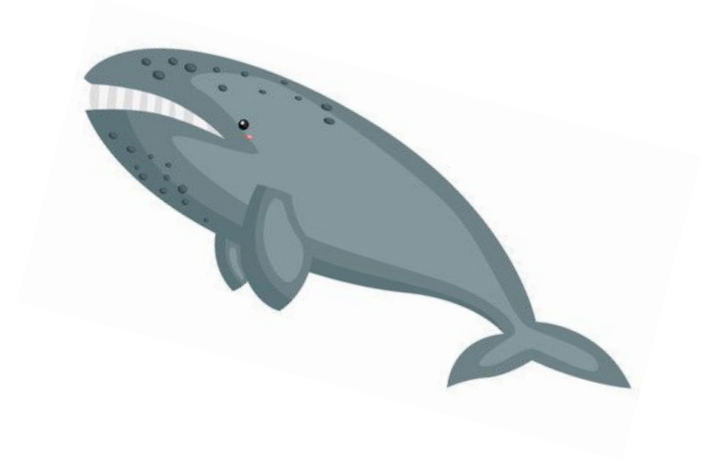

Humpback Whale

Polar Bear

Questions:

- 1) Which ocean is home to the **most** marine mammals?
- 2) Which ocean is home to the **least** number of marine mammals?
- 3) What are some reasons you think one ocean would be home to more marine mammals compared to another?
- 4) Which of these marine mammals has a [migration](#) pattern?
- 5) CHALLENGE QUESTION: Which marine mammal has the longest migration?
